Has not been approved yet:

Demographics has changed over the years. Predominantly white, but 40% of our population is minority.

STAAR scores.

Special Education students are not passing the STAAR. 60-80 hours of professional development is now required for AISD staff b/c of compliance issues. This is part of what we will do to keep from being partially taken over by TEA.

Additional hour long courses will be required from TEA each month for teachers.

Discipline numbers are off. Sped students disproportionately referred for disciplinary action, as well as African American and Economically disadvantaged students.

Panorama surveys only 88% complete.

SEL committee primarily students - they are writing lessons and will be presenting lessons soon.

African American and Economically disadvantaged students - can be grouped so we know who they are and are meeting their needs.

VIII. Adjourn
